

Quax

Havana series

Quax loves contemporary design and with the Havana room the sleek line and solid wood get a place in the range, confirming its place on the international design scene. Tested by internationally recognized bodies on EN-716 for the beds and EN-12221 for the changing tables and with long-term use in mind.

The metal base is finished with a black powder coating. The upper structures are a mix of lacquered and solid wood panels. The charm of solid wood is reflected in its pristine patina and is the guarantee of a natural product that over time becomes increasingly unique and valuable. A contribution that should not be underestimated to the natural and the cozy interior, a caress for the senses. Depending on the tree's habitat, color differences are possible and proof of its essence.

At Quax we use sustainable materials. All the furniture boards meet the strict E1 standard on formaldehyde emissions. We support durable forestry and ask our suppliers to submit the PEFC and FSC certificates. Special care also goes to the furniture fittings. Only reputable suppliers provide us with, among others, quality sliders for the drawers and reliable connecting techniques. The paint finish is another point of attention, we only work with international quality suppliers such as Akzo Nobel and no local producers. All producers are responsible for the certificates of their products, for example EN 71-3 with attention for the migration of harmful elements.

Design also plays an important role in the business philosophy of Quax. In the Havana room the bars are milled out in the Mdf board, which does not only contribute to the fancy nature of this range but also to the sturdiness of the side-frames, not comparable to traditional bars.

The range includes beds 120x60 cm, 140x70 cm with optional bedrail, a chest of four drawers with optional diaper extension and a two or three-door wardrobe.

Could all these be reasons which justify a price difference ?
The choice is yours. Good luck ! Buy it and you will enjoy it !

Quax

Havana series : product info

1. Materials

The bases of the Havana range are made of metal and finished with a powder paint in black color. The superstructure of the furniture in mdf finished with a polyurethane lacquer and solid wood. 54 01 35Pxx

86 cm
65 cm
125 cm

Characteristics

Fixed cot with mattress size 120x60 cm
Bottom adjustable in three positions 26-35 and 48 cm

Safety

Meets the European standard EN 716:2017 with focus on head and finger entrapment and ventilation

Logistic information

colli 1 : 125x69x8H cm - 21,00 kg
colli 2 : 70x69x6H cm - 17,60 kg
colli 3 : 66x23x4H cm - 3,10 kg
colli 4 : 121x 6x3H cm - 3,40 kg
Gross weight : 45,90 kg
Netweight : 41,00 kg
Cbm : 0,121

54 01 35PXLxx

86 cm
75 cm
145 cm

Characteristics

To seat convertible cot with mattress size 140x70 cm
Bottom adjustable in three positions : 26-35 and 48 cm

Safety

Meets the European standard EN 716:2017 with focus on head and finger entrapment and ventilation

Logistic information

colli 1 : 145x75x8H cm - 24,40 kg
colli 2 : 80x69x6H cm - 18,80 kg
colli 3 : 76x23x14H cm - 3,30 kg
colli 4 : 141x 6x3H cm - 3,90 kg
Gross weight : 50,40 kg
Net weight : 45,50 kg
